THE FIRM'S SPIRIT

Our Mission

To increase the value of our Firm and its global portfolio in diversified fields by exceeding customer Satisfaction.

FROM THE OWNER 'S DESK

The success of our Firm derives from the fact that we live common values and aspire to share objectives. The Firm's principles are intended to contribute towards clarifying these values and objectives and to make them an integral part of the Firm. They therefore describe the nature and scale of our activities and the way we treat one another. They are binding at all times for everyone who works in the Firm.

➤ CORE VALUES

We believe in treating our Customers with respect and faith. We grow through creativity, innovation and inventions. We incorporate integrity, honesty and business ethics into all the aspects of our business functioning.

➤ PRINCIPLES

We are a family-owned Firm. The readiness to fully commit oneself to the Firm in good times as well as bad is something that applies in equal measure to everyone who works for it. We want to remain independent. Growth by our own efforts is decisive in this regard. Geographical proximity to our

customers is essential. Still, a powerful headquarter is necessary. All our dealings are marked by fairness, moderation and trust.

➤ RESPONSIBILITIES

➤ We are committed to a free basic order, a fair market economy and free competition. We abide by the laws of places wherever we work and respect their cultures. At all its locations, Udayan Group makes a special contribution to the community. Here, we support innovative ideas and projects that drive social development forward. In our Firm we will not tolerate any form of discrimination. Free trade is only possible if one gains the approval and agreement of society for one's activities. Communication with those in close proximity to us is thus our entrepreneurial task. And we have a strong sense of commitment to job safety, occupational healthcare and environmental protection.

OBJECTIVES

➤ We want to satisfy our customers, employees, owners and society in equal measure. In each of our sectors of activity we are leaders on a world scale, in terms of both technology and organization. We strive to achieve continuous growth that is far above average for the sectors in which we are active. We aim for a net operating margin that enables us to afford our high expenditure on research and development as well as investments made by our own efforts. Our activities both inside and outside our Firm reflect commitment, trust, openness and

sustainability.

EMPLOYEES

The same high performance and quality expectations followed by the entire Firm are also placed on our employees. The safeguarding of jobs is a high priority for us. As well as a fair system of remuneration. We promote our employees' personal and professional competence.

Creative freedom is just as important as a readiness to express as well as to accept fair criticism. We see to the protection of

the Firm's intellectual and material property. Our behaviour should be marked by mutual respect.

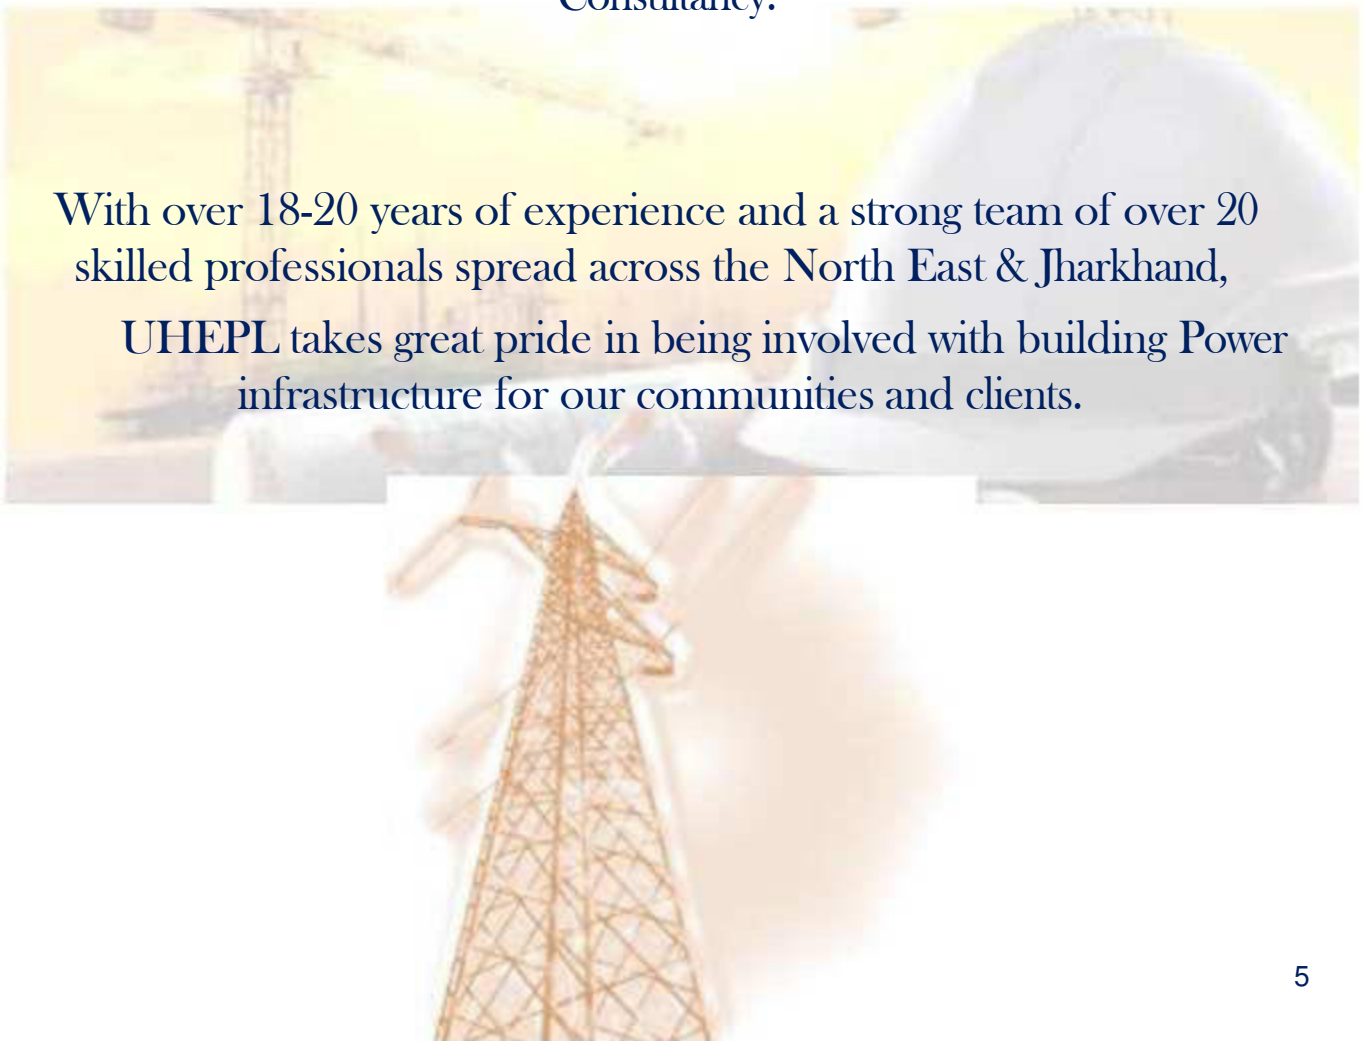

We accord leadership responsibility to those employees who embody the values of our Firm. We expect our managers to show initiative and self-confidence. Managerial ability derives from personal and professional competence. The commitment to innovation applies to every part of the Firm. Our managers include their employees in decision-making processes. Communication between managers and employees is marked by politeness, respect and trust. The behaviour of our managers should set an example to the employees entrusted to them.

UDAYAN HEAVY ELECTRICALS PVT. LTD.

UHEPL is one of India's leading providers of high quality Engineering, Procurement and Construction (EPC) services for the Power Utilities in India.

We provide turnkey services for Survey, Design and Construction of Transmission & Distribution Lines, Substations, Rural Electrification, Civil Works for Power Projects and Engineering Consultancy.

With over 18-20 years of experience and a strong team of over 20 skilled professionals spread across the North East & Jharkhand, UHEPL takes great pride in being involved with building Power infrastructure for our communities and clients.

PRODUCTS & SERVICES:

TRANSMISSION LINES:

UHEPL specializes in providing complete turnkey solution for Designing, Sourcing, Erection, Testing and Commissioning of Extra High Voltage Transmission Lines upto 220KV.

Turnkey services for Transmission Lines includes Survey, Foundation, Erection of Towers, Stringing, Testing and Commissioning of lines.

UHEPL has also provided complete civil work for foundation and erection of 220kV transmission line towers.

SUBSTATIONS:

UHEPL also provides turnkey solution for Execution, Testing and Commissioning of Substation / Switchyard works for the various Power Utilities.

The turnkey solution from concept to commissioning involves complete Engineering, Design of Substation including layouts, Design of bus bars, gantry structures, earthmat, illumination system, protections schemes, foundation designs, structure designs, earth resistivity, earth grid design, complete cable schedule for inter-connecting various substation, layout of control room, Testing and Commissioning of substation.

Our construction team is capable and experienced to carry out all activities like Civil Works, Electrical Installation, Testing and Commissioning of projects in scheduled time. We also undertake Renovation and Modernization projects of existing substations.

RURAL ELECTRIFICATION:

UHEPL provides a complete spectrum of services for Distribution of Power. The range of services includes Design & Erection of distribution network – 33KV & 11KV Lines, LT Lines, Pole mounted substation and providing Service Connections including installations of energy meters.

SURVEY:

UHEPL has the capabilities to conduct detailed surveys for Extra High Tension Lines using modern techniques and have executed over 1000 kms of survey in the last 2 years.

We have resources and skilled teams for study of Satellite Imagery / Toposheets for fixation of Alternative Routes, Walk-over survey for Final Route, Detailing on Final Route, and preparation of BOQ, Tower Schedule, benching / revetment assessment and Profiling.

GIS SERVICES

UHEPL provides GIS based Network mapping of Assets and Consumers for various Power Distribution Utilities. The Firm has experienced teams for conducting “substation-pole-meter” survey, integration of the network on Geo-positioned maps, and developing various simulation models as per client requirement. Some of the

primary features of the software include spot billing, Load-flow assessment, load forecasting and energy audit.

CONSULTANCY SERVICES:

UHEPL also provides Engineering and Project Management Services to its clients. The range of services includes feasibility assessment of projects, cost estimation, system layout design, deciding on the execution time frame and detailed engineering drawings, etc.

INFRASTRUCTURE: UHEPL

- ❖ Fully equipped out-house Design and Drawing section supported by experienced and high profile consultants and system backup for CAD.
- ❖ Most reputed and quality conscious manufacturers are in our approved list of vendors.
- ❖ In possession of Electrical Contractor's licence for HT and LT work.
- ❖ Our technical personnel are in possession of Supervisory Competency Certificate, Workman's Certificate as Electricians, Linemen, Cable Jointers etc., to carry out diverse range of Electrical works.
- ❖ We have all the tools, equipment's, test and measuring instruments, material handling equipment, Oil filtration equipment etc, required in connection with erection, testing & commissioning of Electrical projects including connected Civil works.
- ❖ We have a large fleet of vehicles to undertake any project awarded to us.

TESTING & COMMISSIONING: UHEPL

We have in-house facilities comprising equipment and technical personnel, to carryout testing and commissioning of Electrical works.

KEY PERSONNEL:-

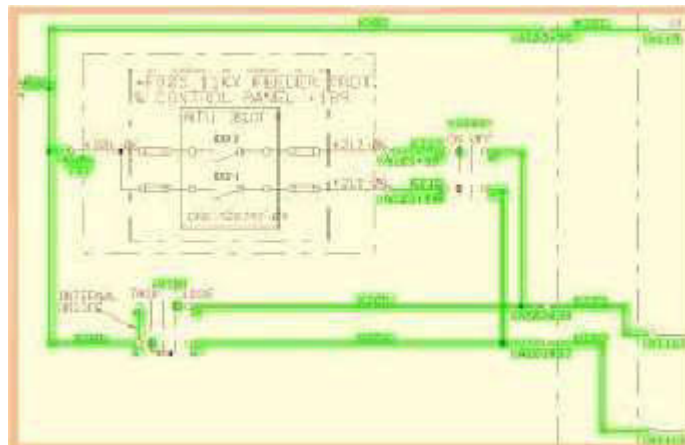

MRS. ANJU PATHAK(DIRECTOR)

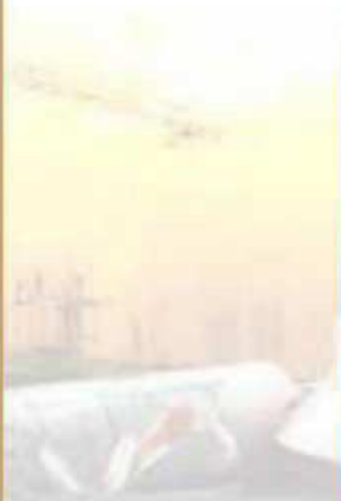

MR. SHANKAR PATHAK(DIRECTOR)

11

TOOLS & EQUIPMENT'S:

TOOLS:

- ❖ Welding Machines.
- ❖ Drilling Machines.
- ❖ Crimping Tools up to 1000 Sq mm.
- ❖ Trifore Machine.
- ❖ Single/Double Pulley.
- ❖ Clamp Meter.
- ❖ Cable Jacks.
- ❖ Chain Pulley Block.
- ❖ Electricians Hand tool Kits.
- ❖ DG Set.
- ❖ Compression Tool for OH line.
- ❖ Grinding Machine.
- ❖ Pipe Derrick Etc.

TESTING EQUIPMENTS:

- ❖ Earth Tester.
- ❖ Transformer oil testing Kit.
- ❖ Transformer Oil Filtration Machine 200 Ltrs/Hr.
- ❖ Transformer oil filtration Machine - 2000 Ltrs/hr.
- ❖ Lux Meter.
- ❖ High Voltage Test Kit.
- ❖ Insulation Megger.
- ❖ Digital Milli ohms Meter.
- ❖ 3 Multi Tester.

- ❖ Pocket Multimeter.
- ❖ Hand cum Motorised Insulator Tester.
- ❖ Transformer Turns Ratio Meter etc.

CIVIL ENGINEERING EQUIPMENTS

- ❖ Dumpy Level - 200 Mtrs Range.
- ❖ Theodolite - 400 Mtrs Range.
- ❖ Concrete Mixer Machine - 1 Ton Bucket.
- ❖ Vibrator with Needle - 50mm Needle.

FUTURE PLANNING: UHEPL

- Start up with the manufacturing of the clamps, connectors and hardware fittings.
- Creating new Substations.
- With the best team of Supervisors & Engineers we wish to move at a very quick pace.

CONCLUSION

UHEPL has a wide range of expertise with development and project management, master planning and architecture with a variety of types and sizes of projects.

The Group policies and practices enable us to deliver projects entrusted to us on time and within budget via a very enjoyable working relationship.

We develop business plans based on an assumption that the Market will be more competitive every next year and navigate the Firm through this challenge.

We are not overwhelmed by immediate matters; but rather, effectively utilize Firm resources to ensure the steady implementation of long-term initiatives which must be undertaken such as the advancement of environmental technologies.

The result of the Firm 's decisions will certainly be realized in the form of attractive new products and technologies in several years.

The Firm & its associates will continue making progress based on the belief that new growth potential will become evident beyond that point.

Ours is a Firm driven to achieve continuous growth by the dreams and passions of each associate. Especially when the Firm faces difficult times, each associate maintains a high level of initiative and continues challenging.

The Firm & its associates will continue earning even more smiles from its customers by creating attractive new products which only we can create.

If you require any further discussion or information about material contained in this Firm Profile and or the Services

Guide, then please don't hesitate to contact us.
The Firm & its associates assures you that our services will make your type of project more profitable via adding financial value to your property and or development project.

We wish to be of service to you in the very near future.

Date :-20.07.2019

To whomsoever it may concern

This is to certify that the construction of 132 kV Transmission Line and 132 kV Bay Extension was awarded to M/s Udayan Heavy Electrical Pvt. Ltd. As per Work Order No. SCL/SJHCP/18-19/089, 090 and 091 dated 5th September' 2018. This work has been completed on EPC basis and successfully energized on dated 27th May' 2019 from RКСN grid and operable.

As executed project detail as below:-

Transmission Line

Voltage Level	:- 132 KV
Total Tower	:- 25 Nos.
Total Length of Circuit	:- 06 Kms
Total State / Highway Crossing	:-01 Nos.
Total Railway Crossing	:-01 Nos.
Right of Way	:- In scope of M/s Udayan Heavy Electrical Pvt. Ltd. On reimbursement basis at actual Cost

Substation

Voltage Level	:-132 KV
Bay	:- 01 Nos.

This certificate is being issued for submission for tendering purpose .
